✍ Declaration

I hereby declare that the above-mentioned information is true to the best of my Knowledge and I bear the responsibility for the correctness of the above mentioned particulars.

📁 Projects

Ecommerce Website

MERN Stack

Developed a full stack application Ecommerce Website using React js and Node js, Express js and Mongo DB. A Seller(admin) can Create, Read, Update and delete their products. A user can look , Buy, Search and Add item to cart etc. Incorporated React Context API for state management and utilized Node.js for the back-end and MongoDB for persistence. Integrated Stripe payments to accept credit/debit cards. Integrated JWT, bCrypt js for Authentication

SMALL PROJECTS

Group Chat Application:- Used Html, css, javascript for frontend and Socket io and Node js for Backend.

Notetaking Application:- A Basic MERN Stack Website where a user can Create, Read, Update and Delete Notes.

News Application:- A Basic React app to display news By using Third Party API.
